To help support and sustain these ongoing prayer groups to pray in unison, Jericho Walls now publishes a Daily 7 Days Prayer Guide that is available for download on this page. It deepened my prayer life and personal worship of God. The Moravian church had their own 24-7 for the 10 days. This wave of 24-7 Prayer still continues after more than two years of Covid-19 lockdown. More than 60 Networks (groups of churches or towns) participated in all of the 7 Weeks during 2021, with 20 still praying non-stop since the lockdown started. We then asked my husband's cousin and his wife if we could pray there and invited them to pray with us. Since the lockdown started most people are now praying one hour per day non-stop. For further equipping, please visit APC Bible College. Since then they also pray every evening at 10pm and God has done amazing things in their lives. I have been able to pray for the unsaved in my family, community and unreached people groups. Consider setting the group on Admin Only after the week of prayer. [My wife] and I have always had individual devotions and occasionally prayed together as needs arose. But most of all God allowed us to grow deeper into Christ. However, the Christian has the firm assurance that joy awaits! Intercessor, Tygerberg 24-7, Cape Town Worth More than Sparrows One evening we were in Abbotsdale (Western Cape) at 10pm when we needed to pray. Ethel, Eerste River Prayer Network, South Africa Growing closer to Jesus In the Jabez Congregation we were knitted closer together during the 10 days of prayer. I bless the Lord. Since the lockdown they never once went without food, petrol, electricity or any other need. In fact, they said that God has really shown his favour on them as they have more now than before lockdown and out of their little, they can also support their neighbours who are struggling. Fiona Koopman - June 2020 The College of Prayer was what I had and the only place where I could pray. Since the lockdown started most people are now praying one hour per day non-stop.
